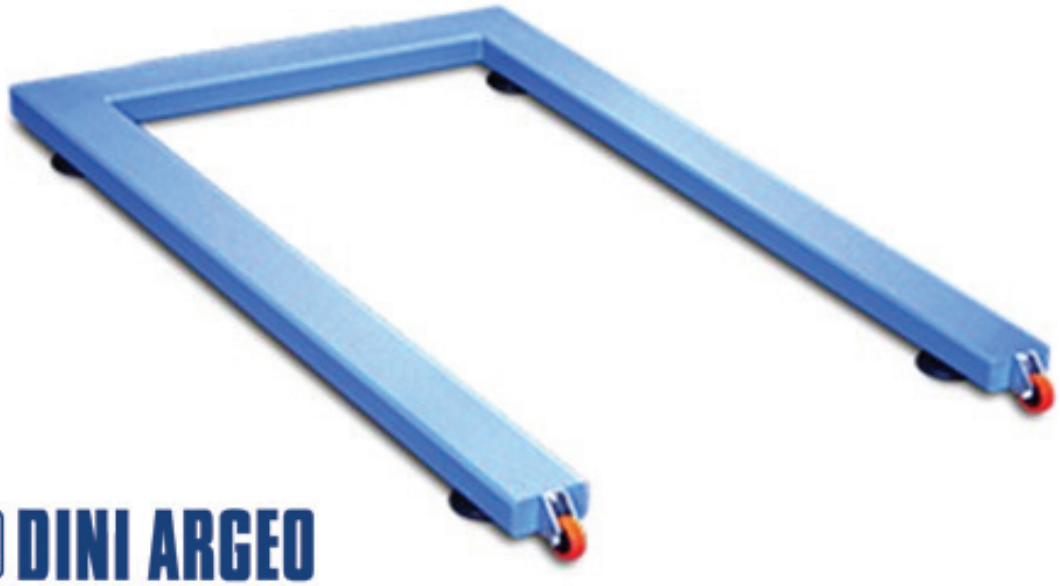
PW SERIES PALLET-WEIGHERS



DINI ARGEO
Scales - Weighing systems

Main Features

- Fitted with 4 shear-beam OIML approved load cells each with 350 Ohm input resistance with protection against dust.
- Painted steel structure, oven-fire painted RAL 5007 blue.
- Adjustable, shock-proof jointed feet, and level; also has 2 wheels and handles for moving it.
- 5/15 Vdc power supply.
- Shielded 5m long cable with connectors for connection to the indicator.

Stainless Steel Version

- Extremely low profile, only 75mm high.
- Self-centering articulated feet completely in stainless steel, non-slip, and anti-vibration, adjustable in height.
- Strucutre, mechanics, and trinkets in AISI304, and IP68 stainless steel load cells, also ATEX.

Options Only Available At Time Of Order

- Connection to the indicator and calibration with CE-M 3000e single range or 3000e+3000e dual range approval (with indicators of our production).
- High resolution model for internal factory use.

Options For Atex Version (Only For Models In Stainless Steel)

- CCATEX: ATEX certificate for each load cell.
- JB4QAP: ATEX certified junction box.
- DCATEXMECH: ATEX declaration for the PLATFORM (for the load cells ATEX declaration see CCATEX-1 code). Option to be offered only if the platform is ordered without the indicator, if so, refer to the chosen weight indicator available certifications.

Accessories

- Indicator support stand.

Low profile, easy to move, pallet-weighing module. Suitable for industrial and commercial applications, in which it's necessary to quickly weigh goods on pallet trucks or lift trucks. Standard version is with approved load cell. Available also in the Ex II 2GD IIB ATEX version in stainless steel.

Available Version

Code	l x w x h (mm)	N° celle	Max (kg)	d (g)	M (g)*	M 2R (g)*	d HR (g)*
